Two outstanding geographical features distinguish Anthony Chabot Regional Park. One is the long, open valley at the northern end, which gave the park its original name, Griggs Valley Regional Park. The other feature is 315-acre Lake Chabot. The park's long valley is a secluded area bordered on the east and west by ridges protecting it from the intrusion of city activity. Much of this area is a grassy and wooded area. Eucalyptus and other large trees stand guard along the valley floor. Deer, raccoon, skunks, squirrels and a wide variety of birds abound.

Lake Chabot nestles in gentle hills - some open and grassy, others densely wooded with mature live-oak, buckeye, manzanita, elderberry and eucalyptus. Bass, crappie, trout and other fish lurk in its deep, green waters. In addition to all the kinds of wildlife found in the park, many varieties of water fowl and other aquatic creatures call Lake Chabot home - or at least a stopping place. There is a loon rookery in a protected area at the upper end of the lake where blue and night herons nest as well as many egrets. Lake Chabot, regularly stocked with catchable-size trout, is one of the Bay Area's outstanding fishing lakes.

The park and its lake are named for Anthony Chabot, pioneer California businessman and philanthropist, who created Oakland's first municipal water system. Among his many achievements were the building of the Lake Chabot and Lake Temescal dam.

Major developments within the park include an Equestrian Center with facilities for boarding and renting horses, a Marksmanship Range for pistol, rifle and trap shooting, Las Cumbres family overnight camping facility, an 18-hole public golf course, clubhouse, restaurant (leased facility), Lake Chabot Marina and a 2 1/2-mile bicycle trail. In addition, there is a novel 67-acre "motorcycle hill" where thrill seekers from all over the Bay Area congregate. Lake Chabot Marina was opened to the public in June, 1966, and the facilities are still undergoing improvement.

Anthony Chabot Regional Park, including Lake Chabot, will be developed over a period of years in accordance with the East Bay Regional Park District's master plan for the park.

Blood Clot Emergency Care

By G. C. Thosteson, M.D.

DEAR DR. THOSTESON: What are the symptoms of a blood clot in a leg?

What do you have to do to clear this up? —G.P.

The symptoms of such a clot — pain and discoloration or an extreme pallor — would be quite evident, to the point where I think you would have been forced to see your doctor.

In any event, such a condition could not be self-treated. It is what is known in medicine as "an emergent" situation, one that must be treated with emergency measures.

If from my description, you think you have a clot, you had best get yourself to a doctor quickly.

She keeps herself clean with sponge baths and she has no odor. When we ask why she doesn't get in the tub, she replies that she doesn't need to because she doesn't perspire, except at the back of her hair line.

We were thinking she doesn't perspire because the pores are clogged from not getting into the tub. Could this be true? —H.C.

Pores aren't going to get clogged for lack of a bathtub, but that's beside the point.

Mother doesn't smell. So if she keeps adequately clean with her sponge baths, why not let her live in peace?

★ ★ ★

DEAR DR. THOSTESON: Would a cold quartz ultraviolet ray therapy lamp be injurious if used on varicose veins? —B.C.

Not if you avoided burning the skin. But there would be no benefit to the varicose veins, either.

DEAR DR. THOSTESON: Since Dad died and Mother came to make her home with us, we discovered she doesn't take a daily bath in the tub.

★ ★ ★

"she said.

It that she didn't do at job. She does a lot of work. I told them I can't, but it's not my bag. I told me they don't a copy."

She daintily removed her 5-foot-1 frame from the restaurant booth. There was packing to do and New York audiences to conquer. But Jane takes it all in stride.

I feel it is my duty to contact you. I fear that what started out as a justification of wrongs may turn into a matter of vengeance. When the authorities got a lead on Wheeler and Don Defreeze I fled for my own safety. I managed to return to my home town. I still remain loyal to our cause, but fear that not all among us share that loyalty. Even more than I fear what may now happen to Miss Hearst, I fear what greed ~~a~~ may do to us. I believe in what we stand for. I believe in what we are trying to do. But I do not believe that we may aid some by hurting others. It is too great a price to pay. Please put my words into print, or broadcast them, so that the others will know that I support them still, but will not stand for the prisoner to be hurt. I want to help the victims of oppression and poverty, but please warn them that if they jeopardize our ideals by harming Miss Hearst, I will have no choice but to renounce them. I am sorry we had to do what we had to do. I am sorry that it has taken such drastic action to make Mr. Hearst fulfil his responsibilities and obligations to humanity. Please act swiftly, for when the others become desperate, they become dangerous. I am cut off from them now, but you can tell them. You can help keep her safe. They will know what I can do to them.

It is as I feared. As you must have heard on the news, they have increased their demands. As long as they hold Miss Hearst prisoner, they will continue to do so. They will not be satisfied as long as they have the advantage. Believe me, they can and will carry out their threat should they decide to do so. What chance is there that they will release her to be an eye witness against them? Now more than ever, I fear that what we tried to do has gotten out of hand. I cannot say what their plans now are. I warned you in my first letter, which I hope you received, read, and believed, that they were dangerous when desperate. They have strayed from the original plan. I do not know who is now in charge, nor what their intentions are, but I am greatly concerned for the prisoner. As I live in secrecy and hiding, I must withhold names. Do not look for me. Your duty is to protect the life of Miss Hearst. I cannot contact those who can do this, but you can. Again, I implore you to send warning to those in the SLA that should they harm the prisoner, I will expose them. They will know who I am, and they will know what I can do. Tell them there is a chance yet that we may accomplish what we set out to do, without hurting anyone. Please, tell them. I say again that lives are at stake. Can you ignore this, and take the chance that this is a hoax? Can you, or will you gamble that those who have killed before will not kill again? It is up to you. May God help us all if you decide wrong.

I feel that I have no choice * but to contact you. I tried to send a message to the authorities in Berkeley, but fear that it failed to arrive, due to insufficient address. When they began their search for Wheeler and Defreeze, I feared I would be next, so I fled. I returned here, to my hometown, where I felt I would be secure. But I could not remain silent. I fear what may happen to Miss Hearst. I am loyal to our cause, but fear now that the great words and ideas which persuaded me to join the SLA may be no more than just words and ideas. I have seen and done things I didn't like. I don't like what we have done now. Should harm come to Miss Hearst, it could destroy the faith that so many have in us, and it may jeopardize our ideals. Through you, I may contact the others, and warn them. I support them still, and believe in what we are trying to do, but I realize now that we are going about it the wrong way, a way which will only hurt people, and not help them. Please get my message to them, in newsprint or on radio. Tell them that if they harm the prisoner, I will be forced to denounce them, and submit information on them. You must believe me, for a life may be at stake. I cannot come into the open, and I will not reveal them if they release the prisoner unharmed, once our great goal is reached. I am sorry that we had to do this in order to right the wrongs done by Mr. Hearst and so many other uncaring capitalists. They ~~will~~ will know what I can do to them. Your action may help to keep Miss Hearst safe, if only you will believe and act. You must, for lives may be at stake. Many lives.

OPEN LETTER TO THE MEDIA

The press coverage of our OPEN LETTER TO THE PEOPLE yesterday was, with a single exception, that of TV and Radio Station KQED, a total distortion of our message. It appears that it is necessary to kidnap a wealthy individual in order to get a fair hearing. The experience of the last day has taught us again with sharp new clarity the extent to which the American people are systematically mis-informed day in and day out by the ruling class-owned media. The established media seem to be truth-proof; they filter every item of news through their own ideology and a misguided sense of "newsworthiness", so that even our message, through selection, omission, and distortion (both intended and by habit), was made to represent us as pacifists, anarcho-syndicalists and/or anti-Marxists, and in general as anything but what we are.

We are not pacifists, but we are not violentists either. We are not "anarcho-syndicalists" or "anarchists" -- our theory originates in Marx (NOT in Lenin, Stalin, Mao, etc.), and in the outbreaks of revolutionary practice by the proletariat throughout the last one-hundred years, such as the Paris Commune of 1871, and the Hungarian revolution of 1956, in all of which forms of workers' councils were created.

If the American and world public is ever to know what really happened and why it happened, concerning the Foster assassination and the Hearst kidnaping so that they can judge for themselves instead of receiving pre-digested messages, our original statement will have to be made public, both uncut and with the present addition included, by the following media that distorted it yesterday:

SF Chronicle
SF Examiner
Oakland Tribune

Quentin 6, the Watergate case, the mass arrests of members of the Farmworkers' Union, the Wounded Knee indictments (to name but a few examples) are all the result of the government's attempt to watch over, control and smash any political activity it sees as a threat.

As our economic situation worsens those fighting back, the mother who steals food for her children, the worker who fights speed-ups, the Black, Raza, or Native American demanding self-determination for his people, will be subjected to the same kind of surveillance, arrest, torture and jailing. These things are not isolated and we must not let the government insist they are.

THERE MUST BE UNITY IN OPPOSING THIS REPRESSION AND SUPPORTING THE SPECIFIC REVOLUTIONARIES JAILED AND THE BLACK LIBERATION MOVEMENT

1. Partial list of activists captured or killed:

- Zayd Malik Shakur (murdered by police), Joanne Chesimard (wounded and captured), Clark Squire (captured), May 1973 in a police ambush on the New Jersey Turnpike.
- Richard Brown charged with the attack on the Ingleside police station in 1971.
- Avon White, Melvin Kearney and Robert Hayes arrested after a shootout in their apartment with NYC police.
- Anthony Kimu White and Woodie Green, 2 BLA brothers ambushed and killed by police in a Brooklyn N.Y., bar.
- The New York 4---Gabriel Torres, Francisco Torres, Anthony Bottoms and Albert Washington.
- Mark Holder, Clinton Moody and Robert Graham, charged with bank robbery.
- The Brooklyn 5 Sporting Goods case, 5 brothers charged with armed robbery, kidnap, assault.
- Mahammad Ahmad, charged with killing a cop.
- Nathaniel Burse and Edward Moran, 2 De Mau Mau brothers killed in their jail cells in Illinois the day before they were to testify in their own defense.
- The Queens 4, Eddie Jamal Josephs, Michael Hill, Dharuba Moore and Butah Mason.

During the last 8 or 9 months many black activists have been arrested or murdered by government agencies which have claimed they were fighting the Black Liberation Army (B.L.A.) The government and the press have been trying to create a huge wave of hysteria throughout the country about "terrorists" by creating the image that revolutionary and freedom fighters from Palestine through Northern Ireland, Angola, Chile, Cambodia, Harlem, and Wounded Knee are bomb-throwers who are a threat to the lives of many people.

The real terrorist is the U.S. government, which showed its true face in the genocidal Vietnam War. The government is using the climate of hysteria created by the press to justify the killings, jailings and beating by BOSS (N.Y. city's gestapo squad), STRESS (Detroit's death squad), the FBI and all the state and local police. The hysteria campaign by the government and the press has tried to isolate the revolutionary forces from the American people to deny them support when they are killed or captured.

Eleven brothers and 4 sisters were busted this August in New Orleans. Six of them are on the streets again, 2 of them are in Parrish Prison and 7 are charged with being members of the B.L.A. They are Harold Taylor, Rueben Scott, John Bowman, Herman Bell, Barbara Gage, Joanne Allen and Judy O'Neill Bell. Herman and Judy Bell underwent torture in the form of 'cattle prods to their genitals, beatings and stompings'.

Many other black activists have been arrested, some murdered, by police in recent months. 1

WE MUST SUPPORT THE BLACK BROTHERS AND SISTERS RUTHLESSLY BEING ATTACKED BY THE GOVERNMENT UNDER THE GUISE OF UNCOVERING THE B.L.A.

Like all poor and working people, these sisters and brothers have to live under a decaying capitalist system which oppresses through racism, sexism, poverty, drugs, 24 hours a day, all their lives. They are supposedly part of an underground that exists. The government doesn't know who belongs to this underground or how it works. They either kill or arrest anybody they feel may be involved, especially people of color.

At the present time people around the world are defeating the U.S. government and its allies. It is suicide for the progressive and revolutionary forces within the U.S. to allow the government to isolate groups and defeat them one by one. Those groups who openly denounce the B.L.A. and other revolutionaries are actually doing the pig's work.

PUBLICIZE THESE ARRESTS AND FRAME-UPS

It is important to publicize political arrests and frame-ups so that people will understand that these are not isolated events. The arrests and torture of alleged B.L.A. people, the arrest of Popeye Jackson (United Prisoners' Union), the Chino Nine, the San

It has been suggested that Marx is a direct intellectual descendant of the Enlightenment--and this does appear to be the case. Marx ^{also} believed in human freedom, ~~although he extends it in his classless society~~ as well as the optimistic idea of progress. found in the Enlightenment, however, his ideas concerning equality and perfectibility are somewhat different in that he extended the notion of abolition of class distinctions as far as taxes, etc. to the notion of a classless society. ~~Marxism is the~~ offers solution to life for all of humanity. Open Letter to the People

We are ex-members of the Symbionese Federation. We resigned collectively from the Federation immediately after the assassination of Dr. Marcus Foster. We had intended simply to dissociate ourselves from the SLA in practice, by ceasing to work with them. Since the kidnapping of Patricia Hearst and the publication of the Declaration, however, we feel compelled to make a public statement concerning our criticisms of the SLA and our history with the Federation, because of their destructive misrepresentation of the revolutionary movement. The obvious first step is to deal with the SLA's tragic misuse of violence.

The revolutionary role of "necessary" violence is the opposite of what the SLA believes, and practices, as recently, where they decided, separately from the rest of the Federation, to murder Foster. Violence alone cannot begin a revolutionary practice, but only the failure of that practice: useless self-sacrifice. Violence, when necessary, can support revolutionary strategy, but never originate or justify it.

By resorting to abstract violence, the SLA not only separated itself from the rest of the revolutionary movement, but became the example to avoid, the stereotype of the "mad terrorist" so indispensable to our oppressors to put us down even more with new laws and restrictions. The surest way to dictatorship is a revolutionary movement represented by provocateurs. However, we have not given and will not give information regarding our location or the location of the SLA to the authorities, for the following reasons:

- 1) While we no longer consider the SLA to be a genuinely revolutionary organization, we are no friends of Randolph Hearst or the class to which he belongs, that is, the class which owns and controls the means of life -- the factories, land, schools, communications, and much of the housing -- in the United States, and throughout the world.
- 2) We are fully aware of the biased and politically repressive nature of the "justice" system which would use our past connection with the SLA to frame us for the revolutionary movement and halt our activity.
- 3) We are in hiding since the split, expecting reprisals from the SLA.

We joined the SLA separately, not knowing each other at the time, but for similar reasons, as we later discovered, namely, that we could no longer tolerate the quality and conditions of our private and public lives -- repressive education that was no more than an assembly line for making obedient slaves, boring and humiliating jobs, declining "standards of living", and a polluted, ugly environment. And, as far as we

...necessary, can support revolutionary strategy, but never originate or justify it.

And, as far as we could see, things were getting worse. All the reforms we fought for in the '60's had failed, or been taken back, and were inadequate to start with. All of us were frustrated with the divided factions of the so-called revolutionary left. That movement was based on guilt, on always making the revolution for somebody else, in the name of somebody else's oppression, supposedly greater than our own. It was dominated by egotistical leader-bureaucrats and leader-stars who cared only about their "revolutionary" careers. They led a mass of follower-lackeys who proved their own decrepitude by tolerating and in fact creating such leaders. The confusion of anti-war groups, sexual liberation groups and national liberation groups were all presenting the image of militant opposition, but we wanted to do more than merely talk back to the TV screen. We were looking for brothers and sisters who felt as urgently as we did that the time to seize back our lives was now. The Symbionese people we contacted were self-disciplined, serious and efficient revolutionary cadres, willing to risk anything in order to gain everything. When we joined in the first founding conference of the Symbionese Federation last June, we thought we had found a place for ourselves in a revolutionary organization that was on its way beyond the Left, old and "new". We joined in August.

During the early stage of the writing of the original Declaration of the Symbionese Federation -- not the same one that the SLA had published in the papers -- basic

2. Open Letter to the People (cont.)

contradictions had already begun to emerge among the membership. Although some of the brothers and sisters asserted that to create a positive vision of a new society required serious thinking -- a clear and comprehensive theory and strategy -- others insisted that all that was necessary was to put yourself into situations where your ass would get kicked and armed bravery would do the rest. Some of the brothers and sisters were complaining about the lack of democracy within the organization. The justification for this was always that we were in a "state of war."

It increasingly became apparent to us that the Symbionese Federation was not fundamentally opposed to the errors of the Left we had known, but was rather the culmination of all its defects. The process of the organization was totally top-down.

The War Council made decisions in secret and the members were expected to obey orders without question, just as in a capitalist army.

Serious conflict developed over the subordination of the support units, as of all non-military activities of the organization, to the combat units: that is, the "Army" came to be seen as the chief agent of the revolution. We began to suspect that the War Council was manipulated either by some local right-wing organization or the CIA itself. The secret decision to kill Marcus Foster, and its execution, confirmed our suspicions.

The kind of revolution we've come to see as necessary has nothing to do with an "Army" of the type the SLA worships. The world economy is entering a depression the like of which has not been seen before. People are finding out that Poppa the capitalist and Momma the State are not going to deliver the goods anymore: no meat, no gas, and maybe no bread. If the goods are going to get delivered, it has to be us, "ordinary" working people, who deliver them to us; who take over and run the closed-down farms, bakeries, and refineries, etc., and deliver the goods to ourselves. That is the real revolution: when we take over the economy, our communities, and all of society, and run them on our own behalf. If we only look for another Mommy or Daddy to do it for us -- a Fascist Party, a "Communist" Party, an SLA -- we will just put ourselves back where we started, only worse off -- living under a total police state.

The irony of the SLA kidnapping is this: that the life of yet one more human being is traded for the barest necessities of survival. Patricia Hearst is being exchanged for what amounts to a temporary raise in state food stamp allotments. As revolutionaries, we are not interested in just an extension of the welfare system, whether "radically" administered or otherwise. But it is not a desire for mere revenge that led our brothers and sisters into the course of action they have chosen. Every day, all of us experience the dehumanization of being kidnapped: of having to sell our labor power -- our very life blood -- up for ransom, to a boss, in order to pay for our survival, in order to be able to work again the next day. This should dissolve once and for all the naive assumptions about human conditions, specifically with regard to who is really proletarian: and should reveal the missionary nature of the SLA's slogan "our interest is to serve and defend the people". The "people" (i.e., the proletariat) is anyone who has no power over their activities and the

War Council was manipulated either by some local right-wing organization or the CIA itself. The secret decision to kill Marcus Foster, and its execution, confirmed our suspicions.

The kind of revolution we've come to see as necessary has nothing to do with an "Army" of the type the SLA worships. The world economy is entering a depression the like of which has not been seen before. People are finding out that Poppa the capitalist and Momma the State are not going to deliver the goods anymore: no meat, no gas, and maybe no bread. If the goods are going to get delivered, it has to be us, "ordinary" working people, who deliver them to us; who take over and run the closed-down farms, bakeries, and refineries, etc., and deliver the goods to ourselves. That is the real revolution: when we take over the economy, our communities, and all of society, and run them on our own behalf. If we only look for another Mommy or Daddy to do it for us -- a Fascist Party, a "Communist" Party, an SLA -- we will just put ourselves back where we started, only worse off -- living under a total police state.

The irony of the SLA kidnapping is this: that the life of yet one more human being is traded for the barest necessities of survival. Patricia Hearst is being exchanged for what amounts to a temporary raise in state food stamp allotments. As revolutionaries, we are not interested in just an extension of the welfare system, whether "radically" administered or otherwise. But it is not a desire for mere revenge that led our brothers and sisters into the course of action they have chosen. Every day, all of us experience the dehumanization of being kidnapped: of having to sell our labor power -- our very life blood -- up for ransom, to a boss, in order to pay for our survival, in order to be able to work again the next day. This should dissolve once and for all the naive assumptions about human conditions, specifically with regard to who is really proletarian: and should reveal the missionary nature of the SLA's slogan "our interest is to serve and defend the people". The "people"

(i.e., the proletariat) is anyone who has no power over their activities and the uses to which they are put, because they must sell them to somebody else. This does not refer to those benevolent "servants of the people" whose "real wish is not the power of the proletariat but their power over the proletariat, whether they be white, black, brown, yellow or red bureaucrats. Just look at China, Russia, and Cuba. In this respect, life there is the same as here: you take orders; you work for somebody else. These countries are still capitalist, only there, the state is the capitalist!!

Once we are running things for ourselves, instead of following orders from the people who extort our time -- producing what they tell us, how they tell us -- we can start to remake the world in the way we want it to be. The SLA idea of "separate, sovereign Nations" is backward and bourgeois. We will have to plan production on a world-wide scale to get what we want; what people all over the world use every day already comes from all parts of the world, not just their own part. But it is vital that we keep control over what is planned and what is produced, and not give up this power to some new government. This means that we will have to organize on the basis of councils -- assemblies of all the people concerned in communities, factories, offices, farms, etc., which make all decisions which concern themselves alone, and

3. Open Letter to the People (cont.)

coordinate larger decisions by sending deputies to city-wide and regional councils, and finally to a world council. These deputies must not be representatives, elected on the basis of personality, to make decisions for us, but should be selected to carry decisions already made by the workers' assemblies to the city, regional, and world coordinating councils. The assemblies must be able to recall the deputy right away if he or she deviates from those decisions.

In conclusion, we want to say that the revolution will not be made by an army, no matter how well-intentioned or well-organized, any more than by a "revolutionary party". The brothers and sisters of the SLA are on the wrong road, a road that leads to sacrifice and defeat. Political power does not come primarily out of the barrel of a gun, but out of control over the means of production and out of new social relationships.

The revolution must oppose all nationalism, because national "independence" in the modern world is a myth. Instead, we stand for the interdependence of working humanity, which is already a concrete fact. The freedom we will discover in overthrowing capitalism and in running society together goes far beyond any "national freedom".

Revolution is the consolidation and creation of new social relationships, new ways of producing and living socially. The SLA believes that kidnapping and assassinating individuals is "doing something", is "practical". To remove a person from his social relationships by assassination does not necessarily change those relationships; somebody else just steps in to fill his place. "The voice of guns" alone cannot substitute for the voices of the working people speaking "the words of freedom", nor for their hands and brains in acting upon those words.

Open Letter to the People

We are ex-members of the Symbionese Federation. We resigned collectively from the Federation immediately after the assassination of Dr. Marcus Foster. We had intended simply to dissociate ourselves from the SLA in practice, by ceasing to work with them. Since the kidnapping of Patricia Hearst and the publication of the Declaration, however, we feel compelled to make a public statement concerning our criticisms of the SLA and our history with the Federation, because of their destructive misrepresentation of the revolutionary movement. The obvious first step is to deal with the SLA's tragic misuse of violence.

The revolutionary role of "necessary" violence is the opposite of what the SLA believes, and practices, as recently, where they decided, separately from the rest of the Federation, to murder Foster. Violence alone cannot begin a revolutionary practice, but only the failure of that practice: useless self-sacrifice. Violence, when necessary, can support revolutionary strategy, but never originate or justify it.

By resorting to abstract violence, the SLA not only separated itself from the rest of the revolutionary movement, but became the example to avoid, the stereotype of the "mad terrorist" so indispensable to our oppressors to put us down even more with new laws and restrictions. The surest way to dictatorship is a revolutionary movement represented by provocateurs. However, we have not given and will not give information regarding our location or the location of the SLA to the authorities, for the following reasons:

- 1) While we no longer consider the SLA to be a genuinely revolutionary organization, we are no friends of Randolph Hearst or the class to which he belongs, that is, the class which owns and controls the means of life -- the factories, land, schools, communications, and much of the housing -- in the United States, and throughout the world.
- 2) We are fully aware of the biased and politically repressive nature of the "justice" system which would use our past connection with the SLA to frame us for the revolutionary movement and halt our activity.
- 3) We are in hiding since the split, expecting reprisals from the SLA.

We joined the SLA separately, not knowing each other at the time, but for similar reasons, as we later discovered, namely, that we could no longer tolerate the quality and conditions of our private and public lives -- repressive education that was no more than an assembly line for making obedient slaves, boring and humiliating jobs, declining "standards of living", and a polluted, ugly environment. And, as far as we could see, things were getting worse. All the reforms we fought for in the '60's had failed, or been taken back, and were inadequate to stand with. All of us were

And, as far as we could see, things were getting worse. All the reforms we fought for in the '60's had failed, or been taken back, and were inadequate to start with. All of us were frustrated with the divided factions of the so-called revolutionary left. That movement was based on guilt, on always making the revolution for somebody else, in the name of somebody else's oppression, supposedly greater than our own. It was dominated by egotistical leader-bureaucrats and leader-stars who cared only about their "revolutionary" careers. They led a mass of follower-lackeys who proved their own decrepitude by tolerating and in fact creating such leaders. The confusion of anti-war groups, sexual liberation groups and national liberation groups were all presenting the image of militant opposition, but we wanted to do more than merely talk back to the TV screen. We were looking for brothers and sisters who felt as urgently as we did that the time to seize back our lives was now. The Symbionese people we contacted were self-disciplined, serious and efficient revolutionary cadres, willing to risk anything in order to gain everything. When we joined in the first founding conference of the Symbionese Liberation last June we thought we had found a place for ourselves in a revolutionary organization that was on its way beyond the left, old and "new". We joined in August.

During the early stage of the writing of the original Declaration of the Symbionese Federation -- not the same one that the SLA had published in the papers -- basic

contradictions had already begun to emerge among the membership. Although some of the brothers and sisters asserted that to create a positive vision of a new society required serious thinking -- a clear and comprehensive theory and strategy -- others insisted that all that was necessary was to put yourself into situations where your ass would get kicked and armed bravery would do the rest. Some of the brothers and sisters were complaining about the lack of democracy within the organization. The justification for this was always that we were in a "state of war."

It increasingly became apparent to us that the Symbionese Federation was not fundamentally opposed to the errors of the Left we had known, but was rather the culmination of all its defects. The process of the organization was totally top-down.

The War Council made decisions in secret and the members were expected to obey orders without question, just as in a capitalist army.

Serious conflict developed over the subordination of the support units, as of all non-military activities of the organization, to the combat units: that is, the "Army" came to be seen as the chief agent of the revolution. We began to suspect that the War Council was manipulated either by some local right-wing organization or the CIA itself. The secret decision to kill Marcus Foster, and its execution, confirmed our suspicions.

Hearst Family,

(Second Commandment: "For I the Lord am a jealous God and visit the sins of the fathers upon the children unto the third and fourth generation.)"

No, we are not religious nuts, but we hate you for your father's part in starting the Spanish-American War, and also for his later, cheap liaison with the trollop Marian Davies."

Our male ancestors were killed in your father's war and their wives were left with pensions of \$25 to \$50 a month for life. We wonder how you can hold up your heads in decent society, and why your contemporaries can stomach your presence. Our once proud families were destroyed by your father's war----which he started to boost his circulation.

HERE IS WHAT WE DEMAND:

Before we release your daughter Patricia, you must show proper humility by acknowledging the guilt of William Randolph Hearst (in regard to starting yellow journalism and instigating the Spanish-American War). You must publicly beg the forgiveness of your country. This must be done on ALL media and must be expressed in terms of abject humility.

When we are convinced that you are showing abject humility for the sins of your father and his papers, we will release Patricia, whose only sin is that she carries the genes of William Randolph Hearst.

TACTICAL SUPPORT UNITS

Each cell of The S.L.A. TACTICAL SUPPORT UNITS is composed of elements of other organizations and groups and individuals. Under the strategy of The S.L.A. it is totally impossible to follow the egotistic aspirations of many leaders of political organizations, since they continue to organize new organizations everytime one falls apart, when they fail to understand that the people always organize to fight the enemy; and when leaders fail to start the fight, then the people fall from that organization.

To continue in this manner is totally reactionary, egotistic, opportunist and ant-revolutionary, since to do so only allows for the continued grouping and regrouping of the same revolutionary people for the fight that never comes and with the only purpose of organizing.

This is totally anti-revolutionary for within the true purpose of revolution there is only TWO DEEP PURPOSES: TO DESTROY THE ENEMY AND FREE THE PEOPLE. This in itself means the need for an army of the people that fights the enemy.

In order to organize, one must organize in support of something, one does not organize in support of having or belonging to or just to organize, but rather one must have a purpose to organize around, and since in revolution it is the purpose to organize to fight the enemy and to support those that fight on the front lines, it is then clear that the people organize to fight and destroy the enemy. They do not organize to fight the enemy and then when it comes time to fight, claim that to fight the enemy will endanger the organization and this would show them to be lovers of positions and the organization and not true revolutionaries that love the people and children.

Since you

Since you as members of the people have organized to fight the enemy, for the reason that you are and do love the people, then it is clear to you where your true responsibility is, and that is to join and support those who are in the front lines fighting the the enemy of us all, regardless of what color, group or organization they belong to, for the people are just this, they are not or organization or color or group, they are the oppressed, exploited and the murdered, they are those we love and for whom we, if needed are willing to die for, they are our children.

Therefore what is needed now is for you as lovers of the people to select in what area you are able and willing to fight in or give support to, either in the combat units or support units of The S.L.A., the choice is yours alone: to be and show yourselves as lovers of the people and our children and true to your word revolutionaries or as egotistic opportunists and lovers of the group and organization and enemies of the people.

8. Leadership of any group or organization who is truly committed and in agreement with the goals of The S.L.A. and the terms of military/political alliance may be presented to The War Council; however, the presented officer's membership is not confirmed until it is verified that prior to presentation for membership a combat action has been taken part in by that group or organization within the last 12 months.
9. Once The War Council collectively agrees to an action or plan of strategy then that action shall be understood as an action of The S.L.A., and not of any any single group or organization. Just as the fingers cannot call themselves a fist, and the fist cannot call itself the fingers. From time to time the membership on The War Council may disagree upon a particular action or strategy. When in disagreement, that particular membership need not participate in The S.L.A. action, but membership on The War Council is maintained only as long as all commitments made to the collective Symbionese War Council are continued to be fully adhered to. It is the disagreeing group or organization's responsibility to, on its own, prove out their ideas in order to change or modify its own or The collective War Council's direction.
10. It is the policy of The War Council not to involve itself in the internal political affairs of disagreements that may result within different organizations or groups. However, The War Council recognizes and accepts membership to the Council of any military/political unit, cell or organization that qualifies and shall recognize them as true representatives of that particular organization or group. It is the collective policy of The War Council that the failure of the elected leadership to take her or his revolutionary responsibility as far as the War Council is concerned shall be totally the responsibility of the elected leader and not that of The War Council.
11. Organizations or groups that wish to serve in combat units must select two persons, one female and one male (if possible), who have full responsibility and authority to act and represent their group or organization and who will hold a command position in the unified command of The United Symbionese War Council.

12.

All members of The Symbionese War Council must clearly understand that our commitment is total and our goal is the total freedom of the people and children and the destroying totally of the common enemy. Therefore, it is held that any restraining of supplies or other war materials etc. for political reasons or reactionary reasons or political chess games with the enemy, by any officer or other persons in the War Council that by its actions endangers the lives of the women and men of The Symbionese Liberation Army shall be held as a full and total violation of this alliance pact and compromising with the enemy and the freedom and life of the people and children and therefore is punishable by death.

TERMS OF MILITARY/POLITICAL ALLIANCE

Our commitment to the revolutionary struggle for self-determination for all oppressed people and races and the international proletarian revolution is total and fully uncompromisable. Therefore, any relationship the Symbionese War Council has with any group or organization is based on their active military/political commitment to the goal of gaining freedom for all oppressed people and races.

1. Our alliance with any group or organization is based upon their firm decision to fight as well as talk in behalf of the people's interest, and once this commitment is clear then we can come together in order to:
 - 1) collectively develop a common strategy
 - 2) work together to develop tactical co-ordination
 - 3) Assist each other in developing the abilities and talents of all the members of the Symbionese War Council and to analyze the strengths and weaknesses of the leadership in order to constantly better all aspects of the ability and actions of the War Council, and its individual leadership from other organizations.

No member of The War Council can elect or select himself or herself to a position such as the head of a government or people's council; the War Council is totally an alliance OF WAR AGAINST THE COMMON ENEMY. The people themselves shall have and hold the ONLY RIGHT to select and elect their governments and government heads of state.

To form laws and codes that safeguard that no person can own the land, or sell the land, but rather the nations' people own the land and use it for their needs and interest to live. No one can own or sell the air, the sky, the water, the trees, the birds, the sun, for all of this world belongs to the people of this earth.
14. To take controls of all buildings and apartment buildings of the capitalist class and fascist government and to totally destroy the rent system of exploitation.
15. To build a federation of nations, who shall formulate programs and unions of actions and interests that will destroy the capitalist value system and its other anti-human institutions and who will be able to do this by meeting all the basic needs of all of the people and their nations. For they will be all able to do this because each nation will have full control of all of its industries and institutions and does not run them for profit, but in the full interest of all the people of its nation.
16. To destroy all forms and institutions of Racism, Sexism, Ageism, Capitalism, Fascism, Individualism, Possessiveness, Competitiveness and all other such institutions that have made and sustained capitalism and the capitalist class system that has oppressed and exploited all of the people of our history.

We of the Symbionese Federation and The S.L.A. are the children of all oppressed people, who have decided to redefine ourselves as a Symbionese Race and People. Yet, recognizing the rich cultures of each and enforcing our rights to existence of our many cultures within a united federation of independent and sovereign nations, each of them flourishing and protected by its own laws and codes of self determination.

We are of many colors, but yet of one mind, for we all in history's time on this earth have become part of each other in suffering and in mind, and have agreed that the murder, oppression and exploitation of our children and people must end now, for we all have seen the murder, oppression and exploitation of our people for too long under the hand of the same enemy and class of people and under the same system.

Knowing this, the Symbionese Federation and The S.L.A. know that our often murderous alienation from each other aids and is one of the fundamental strengths behind the ruling capitalist class's ability to murder and oppress us all. By not allowing them to define us by color, and also recognizing that by refusing ourselves to also internalize this false division definition, knowing that in mind and body we are facing the same enemy and that we are all comrades of one people, the murdered and oppressed, we are now able to become a united people under the Symbionese Federation and make true the words of our codes of unity that TO DIE A RACE, AND BE BORN A NATION, IS TO BECOME FREE.

Therefore, we of the Symbionese Federation and The S.L.A. DO NOT under the rights of human beings submit to the murder, oppression and exploitation of our children and people and do under the rights granted to the people under The Declaration of Independence of The United States, do now by the rights of our children and people and by Force of Arms and with every drop of our blood, Declare Revolutionary War against The Fascist Capitalist Class, and all their agents of murder, oppression and exploitation. We support by Force of Arms the just struggles of all oppressed people for self determination and independence within the United States and The World. And hereby offer to all liberation movements, revolutionary workers groups, and peoples organizations our total aid and support for the struggle for freedom and justice for all people and races. We call upon all revolutionary black and other oppressed people within the Fascist United States to come together and join The Symbionese Federation and fight in the forces of The Symbionese Liberation Army.

THE GOALS OF THE SYMBIONESE LIBERATION ARMY

1. To unite all oppressed people into a fighting force and to destroy the system of the capitalist state and all its value systems. The Symbionese Federation and The Symbionese Liberation Army is a united and federated grouping of members of different races and people and socialist political parties of the oppressed people of The Fascist United States of America, who have under black and minority leadership formed and joined The Symbionese Federated Republic and have agreed to struggle together in behalf of all their people and races and political parties interest in the gaining of FREEDOM and SELF DETERMINATION and INDEPENDANCE for all their people and races.

The Symbionese Federation is NOT A GOVERNMENT, but rather it is a united and federated formation of members of different races and people and political parties who have agreed to struggle in a UNITED FRONT for the independance and self determination of each of their races and people and The Liquidation of the Common Enemy.

And who by this federated formation represent their future and independant pre-governments and nations of their people and races. The Symbionese Federation is NOT A PARTY, but rather it is a Federation, for its members are made up of members of all political parties and organizations and races of all the most oppressed people of this fascist nation, thereby forming unity and the full representation of the interests of all the people.

The Symbionese Liberation Army is an army of the people, and is made up of members of all the people. The S.L.A. has no political power or political person over it that dictates who will fight and die if needed for the freedom of our people and children, but does not risk their life or fight too for our freedom, but rather the S.L.A. is both political and military in that in the S.L.A. the army officer, whether female or male is also the political officer and they both are the daughters and sons of the people and they both fight as well as speak for the freedom of our people and children.

The Symbionese Federation and The Symbionese Liberation Army is made up of the aged, youth and women and men of all races and people. The name Symbionese is taken from the word symbiosis and we define its meaning as a body of dissimilar bodies and organisms living in deep and loving harmony and partnership in the best interest of all within the body.

We of the Symbionese Federation and The S.L.A. define ourselves by this name because
